

BLS TRAINING IN ICCONS

On 31st December 2022 Indian Resuscitation Council Federation, IMA Perinthalmanna and Moulana hospital Perinthalmanna cordially organised a BLS programme in ICCONS, Shoranur. It's part of state-wide IMA programme to initiate the awareness among people regarding the importance of basic cardiac life support. Both theory and practical sessions included in this session. Mrs Sreya lead the session, other 3 faculties were helped to make the session alive. Theory session includes different scenarios in emergency situation like cardiac arrest following myocardial infarction, drowning and burns etc. Practical live sessions were conducted over mannequin like BVM, mouth to mouth breathing, mask to mouth breathing and chest compression etc. more than 100 hospital staffs including doctors, nursing staff, ward attenders, college students, speech therapist, physiotherapist, psychologist, internship students, securities and administrative staff participated in these sessions. Following this sessions a memento handed over to Moulana Hospital by Medical Superintendent behalf of ICCONS for their esteemed cooperation with us.
